

# **INTERNSHIP (Food & Nutrition)**

**Semester – 6<sup>th</sup>**

**CC - 16**

**FN (604)**

**Credit – 0 + 4 = 4**

---

## **Objectives :-**

This course will enable the student to –

1. Make use of all the knowledge and skills acquired during the entire course to deal with the community.
2. Understand situational analysis of nutrition and health problems of community.
3. Devise ways and means to bring about possible improvements in the quality of life of the community.

Internship will be organized with different organizations to place the students according to their area of interest. The staff in charge has to work out the details of operation and evolution with the officers of the organization concerned.
